Yesterday we sent you an email about MFA (Multi-Factor Authentication) and that you would begin to see it when logging into FACTS.

We also provided an instructional video to help you if you have not done it before with other institutions.

MFA is an added layer of security that requires you to verify your identity using a second method such as a code sent to your email or generated by an app after entering your password.

This helps protect your account from unauthorized access. If you have any questions related to the setup process, please contact FACTS directly at 866-441-4637 for assistance.
